

Information Circular: iShares Trust

To: Head Traders, Technical Contacts, Compliance Officers, Heads of ETF Trading, Structured Products Traders

From: William Slattery, Associate Vice President, NASDAQ Listing Qualifications Department

DATE: November 7, 2008

Exchange-Traded Fund	Symbol	CUSIP #
iShares S&P Target Date Retirement Income Index Fund	TGR	464289107
iShares S&P Target Date 2010 Index Fund	TZD	464289206
iShares S&P Target Date 2015 Index Fund	TZE	464289305
iShares S&P Target Date 2020 Index Fund	TZG	464289404
iShares S&P Target Date 2025 Index Fund	TZI	464289503
iShares S&P Target Date 2030 Index Fund	TZL	464289602
iShares S&P Target Date 2035 Index Fund	TZO	464289701
iShares S&P Target Date 2040 Index Fund	TZV	464289800

Background Information on the Funds

The iShares Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of several exchange-traded funds (each, a "Fund" and collectively, the "Funds"). This circular refers only to the eight Funds listed above. The shares of each of the Funds listed above are referred to herein as "Shares." Barclays Global Fund Advisors (the "Adviser" or "BGFA") serves as the investment adviser for the Funds.

Each Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of an S&P Target Date Index (each, an "Underlying Index" and collectively, the "Underlying Indexes"). Each Underlying Index is comprised entirely of securities of iShares funds (each, an "Underlying Fund" and collectively, the "Underlying Funds") that themselves seek investment results that correspond generally to the price and yield performance, before fees and expenses, of their own respective underlying indexes. Each Fund is an ETF fund of funds and seeks its investment objective by investing primarily in the Underlying Funds.

The Underlying Indexes are designed to provide exposure to a diversified array of financial assets, as well as to the investment opportunity generally available in target date funds. Each year, Standard & Poor's ("S&P") conducts a survey of target date funds and combines the raw survey data to derive an allocation strategy for each of the Underlying Indexes. The Underlying Indexes are designed to correspond to the asset class exposures identified in S&P's survey process. Each Underlying Index is

representative of the opportunity available to investors for a particular retirement time horizon.

The retirement time horizon, also referred to as a "target date," is included in the name of an Underlying Index and a Fund that invests in the securities of such Underlying Index. A Fund whose name refers to a particular target date is designed for investors expecting to retire or to withdraw their money around such target date. Thus, for example, the iShares S&P Target Date 2010 Index Fund invests in securities represented in the S&P Target Date 2010 Index and is designed for investors who expect to retire in approximately the year 2010.

The iShares S&P Target Date Retirement Income Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date Retirement Income Index. The Underlying Index seeks to represent asset allocations which target an immediate retirement horizon.

The iShares S&P Target Date 2010 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date 2010 Index. The Underlying Index seeks to represent asset allocations which target an approximate 2010 retirement horizon.

The iShares S&P Target Date 2015 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date 2015 Index. The Underlying Index seeks to represent the market consensus for asset allocations which target an approximate 2015 retirement horizon.

The iShares S&P Target Date 2020 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date 2020 Index. The Underlying Index seeks to represent the market consensus for asset allocations which target an approximate 2020 retirement horizon.

The iShares S&P Target Date 2025 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date 2025 Index. The Underlying Index seeks to represent the market consensus for asset allocations which target an approximate 2025 retirement horizon.

The iShares S&P Target Date 2030 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date 2030 Index. The Underlying Index seeks to represent the market consensus for asset allocations which target an approximate 2030 retirement horizon.

The iShares S&P Target Date 2035 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Target Date 2035 Index. The Underlying Index seeks to represent the market consensus for asset allocations which target an approximate 2035 retirement horizon.

The iShares S&P Target Date 2040 Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses,

of the S&P Target Date 2040 Index. The Underlying Index seeks to represent the market consensus for asset allocations which target an approximate 2040 retirement horizon.

BGFA uses a “passive” or indexing approach to try to achieve each Fund’s investment objective. Unlike many investment companies, the Funds do not try to “beat” the indexes they track and do not seek temporary defensive positions when markets decline or appear overvalued.

Indexing eliminates the chance that the Funds may substantially outperform the underlying indexes but also may reduce some of the risks of active management, such as poor security selection. Indexing seeks to achieve lower costs and better after-tax performance by keeping portfolio turnover low in comparison to actively managed investment companies.

The Funds invest at least 90% of their assets in securities of the Underlying Index and in depositary receipts based on securities of the Underlying Index. Each Fund may invest the remainder of its assets in securities, including iShares funds and other ETFs, not included in its Underlying Index but which BGFA believes will help the Fund track its Underlying Index, and in futures contracts, options on futures contracts, options and swaps as well as cash and cash equivalents, including shares of money market funds advised by BGFA.

BGFA uses a representative sampling indexing strategy to manage the Funds. “Representative sampling” is a strategy that involves investing in a representative sample of securities that collectively has an investment profile similar to a Fund’s underlying index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as return variability and yield) and liquidity measures similar to those of the underlying index. The Funds may or may not hold all of the securities that are included in each underlying index.

For more information regarding each Fund’s investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust’s prospectus and Statement of Additional Information (“SAI”), the Funds issue and redeem Shares at net asset value (“NAV”) only in large blocks of 50,000 Shares (each block of Shares called a “Creation Unit”) or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Dividends from net investment income, if any, are generally declared and paid at least annually by the Funds. The Funds generally distribute net capital gains, if any, to shareholders annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at www.ishares.com.

Purchases and Redemptions in Creation Unit Size

NASDAQ members are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and SAI, and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, credit risk, emerging markets risk, interest rate risk, foreign securities risk, small and medium-sized company risk and liquidity risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on NASDAQ is on a UTP basis and is subject to [NASDAQ equity trading rules](#).

Trading Hours

The values of each index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on NASDAQ between 7:00 a.m. and 8:00 p.m. ET. For trading during Nasdaq's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Funds during these sessions, when the underlying index's values may not be disseminated.

Suitability

Trading in the Shares on NASDAQ will be subject to the provisions of [NASDAQ Rule 2310](#). Members recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in the NASDAQ Conduct Rules.

Members also should review [NASD Notice to Members 03-71](#) for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

Trading Halts

NASDAQ will halt trading in the Shares of a Fund in accordance with [NASDAQ Rule 4120](#). The grounds for a halt under NASDAQ Rule 4120 include a halt by the primary market because the intraday indicative value of the Fund and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, NASDAQ will also stop trading the Shares of a Fund if the primary market de-lists the Fund.

Delivery of a Prospectus

NASDAQ members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Funds.

Prospectuses may be obtained through the [Funds' website](#). The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Funds, please refer to the registration statement.

In the event that the Funds rely upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, [NASDAQ Rule 4420\(j\)\(2\)](#) requires that NASDAQ members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Funds, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, NASDAQ members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a NASDAQ member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

A NASDAQ member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-

member to make such written description available to its customers on the same terms as are directly applicable to NASDAQ member under this rule.

Upon request of a customer, NASDAQ members also shall provide a copy of the prospectus.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Funds.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to a Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on

that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of a Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of a Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to

promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
