Merrill Lynch & Co., Inc. Capped Leveraged Index Return Notes Linked to the MSCI Brazil Index	BPF	59023V472

### Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Capped Leveraged Index Return Notes ("Notes") linked to the MSCI Brazil Index (the "Index"). The Notes were priced at \$10 each and mature on January 20, 2010.

The Notes are senior, unsecured debt securities of the Issuer that provide a leveraged return for investors, subject to a cap, if the level of the Index increases moderately from the Starting Value to the Ending Value. The Notes do not provide for any interest payment and the maturity payment return is capped. The Notes are not principal protected, therefore investors may receive a maturity payment that is less, and potentially significantly less, than the original public offering price.

Payment at Maturity will equal:

- If the Ending Value is greater than the Starting Value, investors will receive:

$$\$10 + [\$10 \times ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value}) \times 2]$$

Subject to the maximum payment at maturity of \$14.50.

- If the Ending Value is less than or equal to the Starting Value, but greater than or equal to the Threshold Value (3,791.835), investors will receive:

\$10

- If the Ending Index Value is less than the Threshold Value (3,791.835), investors will receive:

$$\$10 + [\$10 \times ((\text{Ending Value} - \text{Threshold Value}) / \text{Starting Value}) \times 1]$$

The Starting Value of the Index equals: 4,213.15. The Ending Value will be calculated near the maturity date.

Please see the prospectus for the Notes for more details regarding the calculations.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

Trading in the Notes on NASDAQ is on a UTP basis and is subject to [NASDAQ equity trading rules](#). The Notes will trade from 7:00 a.m. until 8:00 p.m. Eastern Time.
