The purpose of this Market Information Circular (MIC) is to advise you of the enhanced version of CLICK Trade™ for R4.

This is an optional download and the current version of CLICK Trade will continue to operate. However, ISE recommends that you upgrade all of your workstations.

---

## Enhancements

The CLICK Trade upgrade includes the following enhancements:

- Improved performance of the Universal Order Ticket window
- The Spread With Stock ticket now retains the stock/option references that were used to calculate the net price  
 These references will be listed in the **Info** (Message) field and displayed in the spread orderbook.
- A warning message will now display if you attempt to change a spread order that has partially traded
