## Nasdaq PHLX, LLC ("PHLX") Nonstandard Expiration Pilot Program

### **NDXP**

#### **Annual Report**

As part of the Pilot Program, the Exchange submits this Pilot Program report to the Commission (the "annual report"). The annual report contains an analysis of volume, open interest and trading patterns. In addition, for series that exceed certain minimum open interest parameters, the annual report will provide analysis of index price volatility and, if needed, share trading activity. The annual report is provided to the Commission on a confidential basis.

To date Nasdaq has not listed any end of month (EOM) nonstandard NDXP options. All NDXP data included in this report reflects only weekly expirations, except 3<sup>rd</sup> Friday. Data are consolidated across all exchanges that trade the products.

## Analysis of Volume and Open Interest

For all weekly nonstandard expirations series (NDXP), this annual report provides volume and open interest data for each broad-based index overlying weekly expiration options.

In addition, the annual report contains the information noted for standard expiration Friday, a.m.-settled series (NDX), for the period covered in the annual report as well as for the six-month period prior to the initiation of the Pilot Program.

## Monthly Analysis of Weekly Expiration and EOM Trading Patterns

In this annual report, the Exchange analyzed open interest in Weekly Expiration series aggregated by expiration date compared to open interest in near-term standard Expiration Friday a.m.-settled series in order to determine whether users are shifting positions from standard series to Weekly Expiration series. PHLX has no data on other weekly p.m. settled products from other exchanges to compare open interest with these options in order to determine whether users are shifting positions from other weekly or monthly p.m.-settled products to the Weekly Expiration series. Declining open interest in standard series or the weekly p.m.-settled products of other exchanges accompanied by rising open interest in Weekly Expiration series would suggest that users are shifting positions.

### Open interest trends:

After the introduction of NDXP and discontinuation of non-3<sup>rd</sup> Friday NDX contracts, open interest shifted from NDX regular Friday expirations to NDXP. Average month-end open interest fell from 53,592 contracts in NDX during Jul-Dec 2017 to 34,928 contracts in NDXP during Jan 2018 -Jun 2019. NDXP end of month average open interest has widely fluctuated between 16,667 and 75,324 contracts.

Open interest in the full range of 3<sup>rd</sup> Friday NDX contracts has not changed since the introduction of NDXP. Average open interest before the introduction was 84,658 contracts. Open interest after the introduction has been 88,437. Open interest in near-term 3<sup>rd</sup> Friday NDX contracts (expiring within 7 weeks) fell slightly after the introduction of NDXP. Month-end open interest in 3<sup>rd</sup> Friday NDX fell from 61,148 to 55,012 contracts, a 10% decline.

Clearly users shifted positions from discontinued NDX non-3<sup>rd</sup> Friday expiration contracts to NDXP. Any shift from 3<sup>rd</sup> Friday NDX contracts to NDXP is limited at most. First, NDXP does not compete directly with 3<sup>rd</sup> Friday expirations. Second, NDX 3<sup>rd</sup> Friday open interest has changed very little since the introduction of NDXP. Third, NDXP average open interest has so far been below the average open interest in NDX non-3<sup>rd</sup> Friday expiration contracts.
