Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Accelerated Return Notes ("Notes") linked to the Nikkei 225 Index (the "Index"). The Notes were priced at \$10.00 per security and mature on August 6, 2008. Each \$10.00 principal amount of the securities will be deemed a "Unit" for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

At maturity, the Notes will provide full exposure to any downside movement in the Index and will provide triple exposure to any upside movement in the Index, subject to a maximum payment at maturity of \$12.685 per Unit.

If the Ending Value is less than or equal to the Starting Value, the investor receives:

$$\$10 \times (\text{Ending Value} / \text{Starting Value})$$

If the Ending Value is greater than the Starting Value, the investor will receive:

$$\$10 + \$30 \times ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value})$$

Subject to maximum total payment at maturity of \$12.685 per unit.

The Starting Value of the Index is 17,875.75.

The Ending Value will equal the average of the closing levels of the Index for five business days shortly before the maturity date of the Notes, as described in the prospectus.

It is expected that the market value of the Notes will depend substantially on the value of Index and be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yields of the stocks comprising the Index, and the credit ratings of the Issuer.
